R.A 1A  
56ft S along the front (West) wall

**Recommendations:**

Reinforce affected area with 3 plies #15 Felt using hot materials and techniques.

**Cost Perm Repair: \$,,\$,\$,\$**

**Pictures:**

Active  Inactive

**Explanation:**

Upon arrival at site the reported leak at 000 Town Centre was active. A leak investigation was conducted in the suspect area along the west perimeter above The Dominion Store. While on site the metal counter flashings were lifted and openings were located at the toe of the Cant Strip along approximately 25ft of the perimeter.

A temp seal was applied.

Leakage had abated prior to leaving site.

**Cost This Visit: \$,\$,\$,\$**

Digital Picture(s) provide verification of details and location of the leak. This information can prove invaluable for off site managers handling multiple buildings.
